# Adding an EZClaim cloud desktop shortcut

Tuesday, April 19, 2022   12:02 PM

After you have successfully logged into your EZClaim cloud application, you will be able to add a shortcut to your desktop or pin the shortcut to your taskbar/start menu.

Windows Users

1. Click the Windows key to bring up your start menu
2. The Remote Desktop application should show up at the very top with the recently added applications
    a. You can also find it by scrolling down to the R section
3. If you right click on the application, you will have options to pin to your taskbar or start menu
4. If you would like to add a desktop icon, you can simply left click and drag the icon to your desktop

Mac Users

1. Open Applications List
2. You will see the Remote Desktop app
3. You can drag the icon to your desktop to make a shortcut
